

## 2022 Victorian Formula Ford Sporting Regulations

These regulations are to apply to all Formula Ford and Formula Ford 1600 cars competing in the 2022 Victorian State Championship.

### **Tyre Identification**

Each nominated tyre shall be officially marked and each tyre to be nominated must be selected from stock identified in this way.

### **Qualifying and Racing**

Each competitor must nominate a set of tyres (4 tyres) no less than 90 minutes prior to qualifying which must be marked for identification by the FFA representative or scrutineer or nominee. These tyres shall be the only tyres permitted for use in qualifying. The same tyres are also required for all races during that event, unless authorised as below (regardless of changing weather conditions). It is the competitor's responsibility to pre – order tyres from the Yokohama Dealer.

### **Replacement Tyres**

There shall be no new replacement tyres. In exceptional circumstances the FFA representative or scrutineer or nominee may authorise the use of a replacement tyre. This permission shall only be given after presentation of compelling evidence by the competitor. Such a replacement shall result in the competitor being placed at the rear of the grid in their relevant Category for the next track session.

### **Tyre Covers**

Protective tyre covers may be used in the paddock area. Their use is prohibited in the marshalling, pit lane, impound and scrutiny areas and they must not be re-fitted until after each post-session check is complete

### **Heating of Tyres**

The use of any device to artificially heat tyres is prohibited.
